What is the purpose of this workshop?

This workshop will focus on advanced elements of Motivational Interviewing including new elements from the Third Edition of *Motivational Interviewing* and methods for eliciting and strengthening change talk. Supervision of clinicians providing Motivational Interviewing will also be addressed, as well as a module on forming Learning Communities to sustain MI training in real world settings.

Who should attend?

This two-day advanced workshop assumes prior training and reasonable proficiency in Motivational Interviewing. This workshop is **not** designed to introduce the clinical method itself. If you have questions about your ability to participate in the workshop please contact Dr. Moyers (tmoyers@unm.edu) or Dr. Miller (wrmiller@unm.edu) for a consultation.

What will I learn?

- 1) New material from the Third Edition of *Motivational Interviewing*, including a new four-process structure for the practice of MI.
- 2) Methods for recognizing, eliciting and reinforcing client change talk
- 3) Research supporting the active ingredients of MI
- 4) Ideas for supervising motivational interviewing for beginners
- 5) A method for establishing learning communities after MI training

Will I get personal attention?

This workshop will feature didactic material, role-play exercises, video and audio examples, and trainer demonstrations. Enrollment will be limited to 60 people. Both trainers will be present all day, each day to provide opportunity for personal attention to every participant.

Will CEU's be awarded for this training? We offer 13 hours of Continuing Education Credits from the New Mexico Counseling and Therapy Practice Board.

Who are the instructors?

William R. Miller, Ph.D., *Emeritus Distinguished Professor of Psychology and Psychiatry at the University of New Mexico*. Dr. Miller introduced the clinical method of MI in 1983, and with Dr. Stephen Rollnick authored the seminal text, *Motivational Interviewing* (1991, 2002, 2013). Listed as one of the world's most cited scientists by the *Institute for Scientific Information*, he has published over forty books and four hundred professional articles and chapters.

Theresa B. Moyers, Ph.D., *Clinical Psychologist and Associate Professor of Psychology at the University of New Mexico*. She and her research team developed the **Motivational Interviewing Treatment Integrity Coding System (MITI)**. She is the producer of the DVD series (Miller, Moyers & Rollnick, 2012) for the 3rd edition of the MI book.
